

# Cleaner Samples, Sharper Images

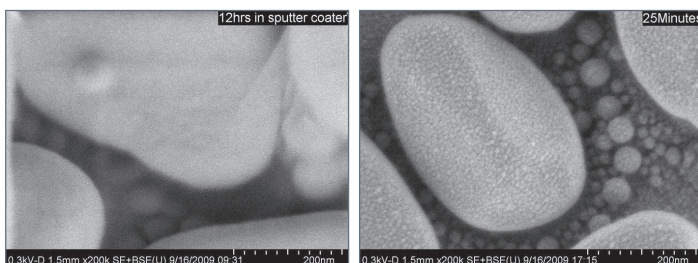

## Sample Cleaning Made Easy!

The Hitachi ZONE Desktop Sample Cleaner is the next generation pre-analysis solution, offering an easy-to-use sample cleaning system that ensures the best possible images and data from your SEM or TEM samples. Its non-destructive cleaning technology, utilizing two cleaning modes—vacuum clean and vacuum clean & storage, is optimized to remove hydrocarbons from sample surfaces quickly.

For a limited time only, we are offering **special ZONE Cleaner purchase incentives**. Contact Hitachi for more information.
