Changes in the Business Calendar as Part of Measures to Conserve Electricity

In order to conserve energy, the Hitachi High-Tech Group will institute comprehensive measures to reduce electrical consumption to reduce peak electricity demand by more than 15% in areas serviced by the Tokyo Electric Power Company and Tohoku Electric Power Company during the summer period of July to September. In addition to our own measures to conserve energy, Hitachi High-Tech will also participate in Hitachi, Ltd.'s shifted holiday and extended summer vacation schedule. As a result, Hitachi High-Tech will change its business hours and increase the number of days off during the summer as listed below.
